

RIVETEC

TITGEMEYER Group

OPTIONAL ACCESSORIES FOR RIVETING TOOLS for blind rivets and rivet nuts

Special accessories can be ordered as standard, but we also do modifications according to customer requirements.

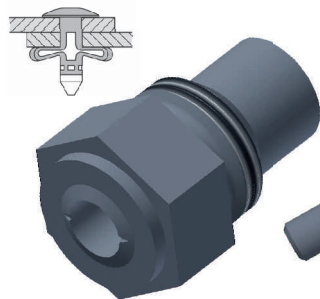

Elongated nosepieces

We make elongated and tapered nosepieces.

Special nosepiece for Bulb-tite® rivets

Designed for the special rivets.

Elongated and tapered nozzles

Extended nozzle designed for difficult to reach areas.

Special jaws for stainless steel rivets

Designed for stainless steel rivets for the type of gun RL12, RL15A, RL20A.

Optional accessories

for riveting tools - for blind rivets and rivet nuts

Collector with silencer

Lowers the sound level.

Short collector

For riveting in confined spaces.

Adapter for exhaust hose mandrels

It is used in applications for continued riveting. It ensures fast removal of mandrels.

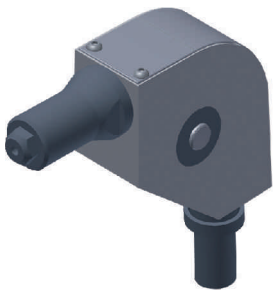

Ring sensor

With ring sensor can electronically count cycles. The sensor records each flyby torn rivet mandrel.

Angle head PRH 840

It is used in confined spaces where it is not possible to use standard tools.

Prolonged threaded mandrels & nosepieces

They are used in less accessible places.

Threaded mandrels UNC, UNF

Threaded mandrels to nut rivets with imperial thread.
