REACH 247 Declaration

Registration, Evaluation, Authorisation & restriction of Chemicals (REACH) is a regulation of the European Union, adopted to improve the protection of human health and the environment from the risks that can be posed by chemicals, while enhancing the competitiveness of the EU chemicals industry.

REACH defines an article as an object which during production is given a special shape, surface or design that determines its function to a greater degree than its chemical composition.

Manufacturers, importers, or anyone who places products in the EU market must comply with REACH Annex XVII requirements, including ensuring that the concentration level of regulated substances is kept under the prescribed limit. Thus, products that contain restricted substances above the set limitations, can't be placed (as in sold) in the EU market.

Currently, REACH Annex XVII restricts the use of some phthalates to a maximum of 0.1% by weight in plasticized materials, including: DEHP, DBP, BBP and DIBP.

Please visit the ECHA website for more details.

The Candidate List of substances of very high concern (SVHC) now contains 247 entries for chemicals that can harm people or the environment. Companies are responsible for managing the risks of these chemicals and giving customers and consumers information on their safe use.

REACH SVHC was last updated on the 21st January 2025 with an additional substances

Substance name	EC Number	CAS number	Reason for inclusion	Examples of uses
6-[(C10-C13)-alkyl-(branched, unsaturated)-2,5-dioxopyrrolidin-1-yl]hexanoic acid	701-118-1	2156592-54-8	Toxic for reproduction (Article 57c)	Lubricants, greases, release products & metal working fluids
O,O,O-triphenyl phosphorothioate	209-909-9	597-82-0	Persistent, bioaccumulative and toxic, PBT (Article 57d)	Lubricants & greases
Octamethyltrisiloxane	203-497-4	107-51-7	Very persistent, very bioaccumulative, vPvB (Article 57e)	Manufacture &/or formulation of: cosmetics, personal/health care products, pharmaceuticals, washing & cleaning products, coating & non-metal surface treatment & in sealants & adhesives
Perfluamine	206-420-2	338-83-0	Very persistent, very bioaccumulative, vPvB (Article 57e)	Manufacture of electrical, electronic & optical equipment & machinery & vehicles
Reaction mass of: triphenylthiophosphate and tertiary butylated phenyl derivatives	421-820-9	192268-65-8	Persistent, bioaccumulative and toxic, PBT (Article 57d)	No active registrations

Updated entry:				
Tris(4-nonylphenyl, branched and linear) phosphite	-	-	Endocrine disrupting properties (Article 57(f) – environment)	Polymers, adhesives, sealants & coatings

I hereby confirm that parts supplied by Cirteq Ltd comply with REACh Regulations SVHC (Substances of Very High Concern) and will inform you of any substance's presence above the threshold **allowed 0.1% w/w.**

Signed on behalf of Cirteq Ltd
