## RIEKO Roller Shutters

## RIEKO roller shutters

With over 40 years' experience, RIEKO, a member of Titgemeyer Group, offers the highest levels of expertise when it comes to developing bespoke solutions to very specific, customised requirements.

RIEKO's range of roller shutters encompasses a wide array of standard products and customer-specific special designs. Especially aluminium roller shutters used in vehicle construction that are incorporated into numerous fire service, technical relief and transportation vehicles, and those adapted to individual body designs. Needless to say, numerous other uses are also possible, for example in mechanical engineering, at the workplace, or in high-quality kitchens and transport systems. A host of different solutions awaits for the most varied of requirements.

## Benefits at a glance

- DIN EN ISO 9001:2008 certified
- Decades of sturdy, tried-and-tested and refined roller shutter construction
- Numerous optional extras, such as:
  - Solenoid switches for warning lights and interior lighting
  - Central locking system
  - Various finishes
  - Integrated LED lighting
  - 12/24 or 110 / 230 V motor
